

Report Manager

Unify Enterprise Report Manager is an intuitive web based reporting solution for Active Directory and Exchange. Unify Enterprise Report Manager provides instant access to the critical information regarding the health and state of Active Directory and Exchange— helping you to meet your regulatory compliance and audit initiatives.

Every organization—regardless of size—can benefit from Report Manager, when immediate status is required and trolling through old log files is simply not enough. It is virtually impossible to enforce IT policy across the AD forest without a centralized management solution that includes the ability to instantly track and report anomalies. Administrators who run regular reports with Unify Enterprise Report Manager will immediately know the health and status of Active Directory. The result is reduced downtime, faster & more uniform audits, and vast overall decrease in configuration errors.

Ensim Unify Report Manager is available as a stand alone solution or integrated with Ensim Unify suite of tools.

Pre-Configured Reports

List of users for whom password never expires

List of users for whom password has expired

Users for whom password will expire

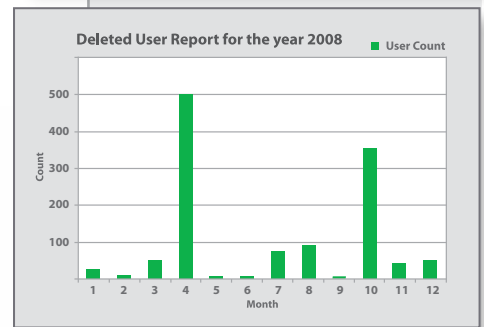

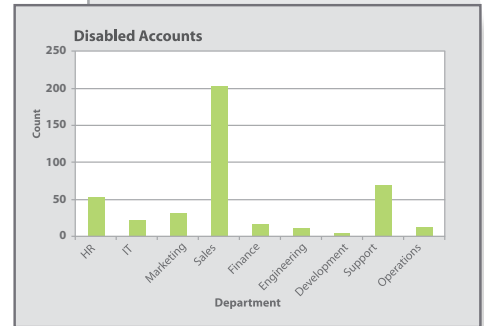

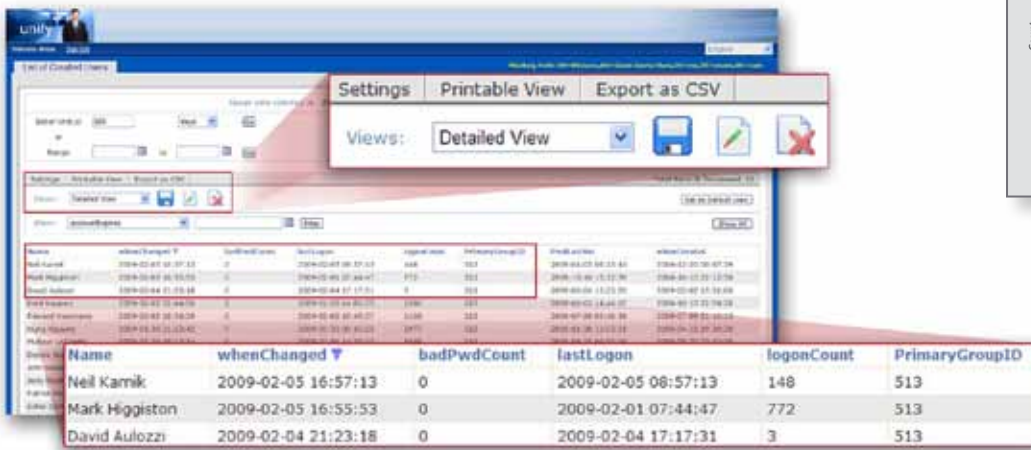

Users who changed their passwords recently

Users who have not changed their password

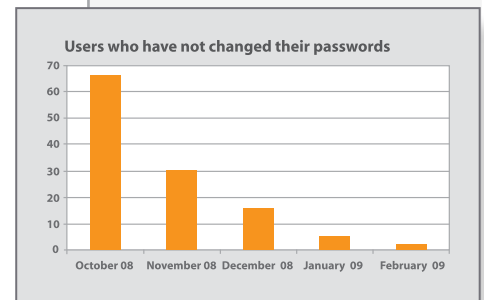

Key Benefits

- Reveals non-compliant objects to help administrators enforce their standards and policies in real time
- Proves regulatory audit compliance by identifying users and other objects that may violate corporate compliance and security policies
- Economizes on department assets spent to create and verify reports normally done by hand
- Many reports available out-of-the-box that can be easily customized by junior IT members with delegated permissions

Key Features

- Ships with series of critical pre-configured reports and the ability to easily create custom reports
- These web based reports can be easily integrated within your Intranet
- Reporting can be Saved, Printed or Exported to share critical data with other department members
